What we're looking for

We're looking for someone at the beginning of their career who really wants to become a great chef.

You might already have some professional kitchen experience, or you may have recently completed your training and be looking for the right kitchen to continue learning. What matters most to us is your attitude, your willingness to learn and wanting to be part of a team producing food at a high level.

If you're ambitious about where your career in food could take you, we'd love to hear from you.

More Than Just a Job

Great hospitality should be a great place to work too.

There's a real energy to life at Manor House. We work hard and expect a lot of ourselves, but we have fun doing it.

When Manor House succeeds, our people share in that success through staff tips and bonuses. Add paid breaks, meals on shift, free parking and some memorable staff parties, and there's plenty to enjoy along the way!
